CHAPTER III.

THE tension in Virginia was growing thin. Again and again the burly Earl of Dunmore prodded the assembly on the pretext of popular excitement. The burgesses submitted with a bow, and the fiddles played in their town houses. Dunmore thought himself a diplomat and went on winning his Tory favorites at the palace. But under the music was an ominous muttering.

Restless, eager, he had ridden hither and thither like a shadow—at courthouses calling the minutemen, overseeing the election of the committee recommended by the congress, at Albert's poring over lists with Jefferson, uniting north and south in a network of nerves, laboring, tireless and convincing.

loyalty. Those who held with the king, besides the tond eaters, were for the most part the lower classes, officeholders, tradesmen just over from London. The stanchest rebels were the great landed planters. Sedition was in the club room and the parlor. One must to the tavern bar for toasts to the king.

On the day this news was printed in the Williamsburg Gazette Henry and Jefferson met at Albert's and set out on horseback for Richmond. There, in St. John's church, the new Virginia convention, mindful of the bloody threats of the sinister governor, had elected to meet, and thither had gone a half of Williamsburg, leaving Dunmore with his troops at his palace to bite his nails in impotent anger.

ended of the whole continent of North America, to see a speedy return to those halcyon days when we lived a free and happy people." As she looked down at Henry, Anne saw that he was scribbling on a scrap of paper.

There was a hush as he arose and a buzz of expectancy as he mounted the rostrum. He held in his hand the paper upon which he had been scribbling. Anne felt a touch of disappointment at the cold, measured quality of his tone. With that flickering half smile which meant dissent he moved an amendment to the Jamaica resolutions. He read without a gesture, in pronunciation as plain as homespun. His voice moved evenly, almost carelessly, over the periods.

From her seat in the west gallery, whither Jefferson had taken her, Anne surveyed the scene below.

The first proceedings interested her little—the reading of Jamaica's late memorial to the king—and her gaze wandered. Through the open windows she could hear the hum of the great crowd about the building and catch a glimpse of the foaming James. The space below her was packed and full of a strange intentness.

Here and there she could see faces which she knew. The ladies of Richmond were scattered through both galleries. Frenau and young St. George Tucker were leaning over the rail opposite. Jefferson and Colonel Benjamin Harrison of Berkeley sat together just below Peyton Randolph, the president.

Colonel Washington sat far back, hands on knees, quiet and meditating, and just below her Mr. Thomas Nelson shifted nervously in his seat, turning his eyes now there, now here.

Well to the front sat Richard Henry Lee of Chantilly, "the gentleman of the silver hand." The black bandage he wore over his hand fascinated her. She had heard it said he wore it to hide a wound he got when shooting on the Potomac.

Her attention came back with a start as she heard the resolution in answer to Jamaica that "it is the most ardent wish of this colony, and we are prepared to defend it with our lives and property."

She met Henry in front of the Indian Queen inn and walked with him up toward the churchyard, now filling with a vast throng.

"Tell me," she questioned eagerly. "Will it come today?"

He looked down at her with that rare smile which seemed to be the higher part of him, gliding and transfiguring his other self. "What faith you have in me," he said.

"I know," she answered. "I have seen it in your face. No one in Virginia can do it save you—none of them. It must be the voice before the arm."

"The spark before the explosion," he muttered, "and the train is nearly laid." His hands moved restlessly.

"I have longed—prayed—for some new overt act of Dunmore's that should be spark to powder. But he lies low. And it must come from us. You were right when you said that last fall at Winchester. Boston is trodden on, but she lies quiet. The colonies look to us. It is the voice of the south, of Virginia, that is wanting."

He stopped. Jefferson was hasting toward them. He bowed to Anne.

"Have you heard the buzz from London?" he asked Henry hurriedly. "Tis all among the delegates. 'Tis declared that our petitions to the king are graciously received, that all the acts will be repealed save the admiralty and declaratory and that North and Dartmouth will be replaced."

"Aye," burst Henry fiercely. "Another Tory tale! And they will waver again. Tom, Tom, it must be now or never!"

He stopped abruptly and strode across the churchyard over the matted ivy on the shrunken mounds and, threading his way between the old slate tombstones, upright like black lichen on coffin lids, entered the edifice.

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

JAPS HIT BOLDLY

Port Arthur Has Been Cut Off and Left to Its Own Resources.

SKRYDLOFF TOO LATE

Admiral Makaroff's Successor Will Not be Able to Reach His Expected Destination.

Second Army of the Japanese Lands on the Liao Tung Peninsula and Takes Possession.

St. Petersburg, May 7.—A dispatch received last night says that Port Arthur is cut off from all communication by land, the Japanese having disembarked in its rear, occupied the railroad and cut the telegraph. Vice Admiral Skrydloff, who is en route to Port Arthur to take command of the naval force in the far East, will be unable to reach his destination.

Mukden, May 7.—Viceroy Alexieff has arrived here.

St. Petersburg, May 7.—Japanese troops swarming across the narrow neck of the Liao Tung peninsula, the railroad and telegraph communications cut and the Russian Gibraltar isolated and left to its own resources—all this the Russians seem to accept with great stoicism.

These events have been anticipated since the outbreak of the war, and the authorities, in a sense, appear to be relieved now that the blow has fallen. They assert that the fortress is impregnable and amply provisioned to stand a siege for a year, and that it can hold out until the time comes to relieve it.

According to official information the landing of troops from sixty transports began simultaneously at Pitsewo and Cape Terminal on the morning of May 6. It is also reported that troops are being landed at Kinchow, but this is not credited, as the Russians are known to have fortifications there and it is not believed that the Japanese had the daring to land immediately under an entrenched position from which the Russians could inflict severe injury on them.

Complete details of the landing are lacking owing to the interruption of communication. No resistance was made, the few Cossacks who observed the movement retiring when the warships shelled the shore preparatory to disembarkation. Ten thousand men were put ashore Thursday and the disembarkation was proceeding yesterday at the time that communication ceased. It is believed that there are over 20,000 now on land preparing for a forward movement.

Two Japanese regiments were hurried westward yesterday morning to cut the railroad and telegraph communication. One of these fired on a train conveying the wounded from Port Arthur.

It was because he was convinced that Port Arthur was about to be cut off that Viceroy Alexieff, accompanied by his staff and Grand Duke Boris left hastily. On Thursday several trainloads of sick and wounded and other ineffective were dispatched northward.

It is reported here that the Japanese ships bombarded Port Arthur early on the morning of May 6, and succeeded at last in closing the entrance, but no official confirmation of the latter statement can be obtained. The exact hour at which communication with the Russian stronghold ceased has not been established.

The strength of the garrison at Port Arthur is not revealed by the authorities, who will only say that it is adequate for defensive purposes. It is not believed that the force there exceeds 10,000 soldiers. A large force is not considered necessary, as was shown from the recent withdrawal of some of the troops who were simply a drain on the resources of the garrison.

The fleet must now take a secondary position and the sailors will be used to man the shore guns if necessary.

Vice Admiral Skrydloff and Vice Admiral Bezobrazoff cannot now reach Port Arthur and will probably go to Vladivostok to join the cruiser squadrons there. Rear Admiral Wittsoff, who was left in charge of the fleet by Viceroy Alexieff, will direct operations at Port Arthur. Wittsoff is a good officer, and it is believed he will render excellent service.

The receipt of news at any time of a decisive battle near Feng Wang Cheng will not cause surprise here and already rumors are circulating in the city, which, however, lack verification and are believed to be untrue that a battle has been fought; that the Japanese have been defeated with heavy loss, and that General Kuro patkin was wounded. Another rumor is in circulation that Port Arthur has been captured, but this also is scouted in responsible quarters.

JAPANESE STRATEGY

Three Great Blows Delivered in Rapid Succession.

London, May 7.—The British press is loud in its expressions of admiration for the brilliant Japanese strategy it dealing in rapid succession three great

blows—the battle of the Yalu, the sealing of Port Arthur, and the landing at Pitsewo, and the development of these opening moves is awaited with the greatest interest. It is considered to be not unlikely that the primary object will be an assault upon Port Arthur and an endeavor to capture the Russian fleet there, or that the Japanese will be content to place a small force as a mask at Port Arthur and will send their main force from Pitsewo to co-operate with General Kuraki's army, in which case, if the Russian assertion that large reinforcements have been sent to Feng Wang Cheng is true, a great land battle is imminent there or at Liao Yang. It is believed that it is Japan's second army that landed at Pitsewo and that the destination of the third army is still to be revealed.

Practically no further news of any kind has reached London beyond belated dispatches from correspondents with the Japanese army on the Yalu, detailing events preceding the recent battle. A Tokio correspondent asserts that simultaneously with the attack on Port Arthur the Japanese laid cables between one of the islands and the main land as a protection to their landing place.

LANDED IN FORCE

How the Japs Routed the Russians at Pitsewo.

St. Petersburg, May 7.—The ministry of war has received the following telegram from Major General Fflug, chief of the military staff: "According to the information I have received, seven of the enemy's transports and afterward about forty, appeared opposite Pitsewo on the evening of May 4. On the morning of May 5 the Japanese began to land at Pitsewo and on the

MAJOR GENERAL FFLUG, coast near Cape Terminal (about fifteen miles southwest of Pitsewo) under cover of artillery fire. At this moment about sixty transports were observed bearing down upon the whole front and our posts retired from the shore. All papers in the postoffice at Pitsewo were removed and the Russian inhabitants abandoned the town. According to Chinese reports, by the evening of May 5 about 10,000 of the enemy's troops had landed and taken up quarters in the Chinese villages near the points of debarkation. The enemy sent two columns of about one regiment each, one in a westerly direction and the other to the southward."

Ogdensburg, N. Y., May 7.—Special treasury agents who have been investigating entries of hay and other goods paying a specific duty brought in at points along the northern border have found 2,000 cars of hay short of duty amounting to \$8,000. The frauds were perpetrated by entering the hay at less than its actual weight. Hay, dutiable at \$4 per ton was entered as straw, paying \$1.50 duty. Straw was put in the car doors to deceive the officers. Importations of shingles and lath are now under investigation.

TO RECLAIM AFRICA

This Is the Mission of the American Negro, Says Bishop Turner.

BACK TO NATIVE LAND

Leader of the Colored Race in This Country Gives His Views of "The Negro in Science."

Slavery Had Its Uses in Training the Black to Go Back and Reclaim His Native Land.

Chicago, May 7.—"I am unwilling to sing 'America' until this country is what it claims to be—'Sweet land of liberty,'" declared Bishop H. M. Turner of Atlanta, Ga., at last night's session of the African Methodist Episcopal conference. "The Negro in Science" was the subject of the address delivered by Bishop Turner, which caused him to take up every phase of the negro question in this country and led him to say that this was not the negro's home, but on the contrary that God had allowed the negro to come to this country, to be enslaved in order that he could be trained and go back to his native land and make it what it should be. In concluding his address Bishop Turner said:

"The supreme court of the United States is against us. We have good friends in this country, yet they are comparatively few and the only thing left for us to do is to leave. Let us be men, let us go where we can be men. The negro is here. Some declare that he is here to stay, but I doubt this very much unless he is laid under the ground."

DESIRES RELEASE

Bishop Merrill Resigns After Many Years' Faithful Service.

Los Angeles, Cal., May 7.—Bishop Stephen M. Merrill of Chicago, senior member of the board of bishops, has presented a petition to the conference asking that he be retired from active service. The hearing of Bishop Merrill's petition, which detailed at some length his long service in the interests of the Methodist church, was an interesting incident of the session. Bishop Merrill's petition opened with the statement that he was in the 79th year of his life and the 59th year of his ministry. The petition was referred to the committee on episcopacy.

AGAINST LYNCHING

Alabama's Executive Orders Investigation of Recent Cases.

Montgomery, Ala., May 7.—Two lynchings have occurred in Alabama within the past thirty days, one for alleged criminal assault and the other for an alleged assassination of a white man by a negro. Acting Governor Cunningham yesterday took decided action to have these lynchings investigated and the guilty punished. He addressed letters to Circuit Judges W. S. Anderson and T. Scott Sayre, calling their attention to the lynchings and urging them to hold special terms of their courts to bring lynchings to justice. He gave an interview in which he said:

"I believe that prompt trial by court of all rapists and assassins and an earnest and prompt effort to bring lynchings to justice will not only make the law a terror to criminals, but also to those who disregard it by substituting lynching for courts of justice."

West Virginia Politics.

Charleston, W. Va., May 7.—During a political meeting last night Jean Chandler was fatally shot by William Leachman at the Patrick schoolhouse, where a meeting was held preliminary to the Republican primaries today.

More trouble is expected to follow this outbreak. There have been a dozen men shot in this state during the present contest for the Republican nomination for governor.

Debs Accepts.

Chicago, May 7.—The National Socialist convention adjourned last night after listening to an address by Mr. Debs accepting the nomination for president. Aside from the nomination of candidates for president and vice president, the important work of the convention was the outlining of a policy for the extension of the Socialist propaganda.

Fatal Hotel Fire.

Salida, Col., May 7.—Raymond Zooks, a young miner, was burned to death and six other persons had a narrow escape from being cremated in a fire that destroyed the Hotel Turrett, a two-story wooden structure at Turrett, a mining camp twelve miles north of Salida.

Fire in New York Theater.

New York, May 7.—A fire occurred here last night in the building occupied by Proctor's 125th street theater while a performance was going on. There was much excitement, but the theater was soon emptied and no one was hurt. The damage was not great.

Five Miners Entombed.

Shamokin, Pa., May 7.—Five miners are entombed and believed to be dead as a result of a fierce fire which is burning in the Locust Gap colliery of the Philadelphia and Reading Coal and Iron company.

Tibetans Resist Advance.

Simla, May 7.—Eight hundred Tibetans coming from the direction of Shigatse attacked the British mission at Gyantso at dawn on April 5. The Tibetans were repulsed with heavy loss, and fled. The British had only two Sepoys wounded.

Steamer Goes Ashore.

Lisbon, May 7.—The German mail steamer Kurfurst, which went ashore four miles northward of Sagres, in the extreme southwestern part of Portugal, is a total wreck. Her passengers and crew are safe.

Better the service without the sentiment than the sentiment without the service.—Chicago Tribune.

The Dinner Pail

Of the American working man is generally well filled. In some cases it is too well filled. It contains too many kinds of food, and very often the food is of the wrong kind—hard to digest and containing little nutrition. As a consequence many a working man develops some form of stomach trouble which interferes with his health and reduces his working capacity.

Where there is indigestion or any other indication of disease of the stomach and its allied organs of digestion and nutrition, the use of Dr. Pierce's Golden Medical Discovery will almost invariably produce a perfect and permanent cure.

Mr. Thomas A. Swartz, of Sub Station C, Columbus, O., Box 105, writes: "I was taken with severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble and my back got weak so I could scarcely get around. At last I had all the complaints at once, the more I doctored the worse I got until six years passed. I had become so poorly I could only walk in the house by the aid of a chair, and I got so thin I had given up all hope, thinking that I could not be cured. Then one of my neighbors said, 'Take my advice and take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me so I thought I would get another, and after I had taken eight bottles in about six weeks, I was weighed, and found I had gained twenty-seven (27) pounds. I am as stout and healthy to-day, I think, as I ever was."

FREE. Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

The New York Times has brought a suit against W. R. Hearst and his New York and Chicago papers. The Times alleges libel and wants to establish that claim through the courts.

There is unquestionably a growing sentiment in favor of a more vigorous enforcement of certain laws that have been from time to time openly violated in this city. And it is well that this is true for public sentiment is a great power back of the officials whose duty it is to see that the spirit of all laws are complied with. There was never a better time than right now to rid our city of some of these open and flagrant violations of law. No good comes to the city or to the public because of these things. In fact harm often results. Let public sentiment assert itself.

LIFE is valued lightly these days. Yesterday's papers chronicle this list for Indiana: A woman died from strychnine, taken because her husband had reprimanded her for drinking; a sixteen-year-old girl swallowed carbolic acid because her father had reproved her; a man took morphine because he had lost his property in a lawsuit; a man cut his throat because of the loss of eyesight; a young girl took carbolic acid because she dreaded to return to her home in the country. This is not an uncommon record for a day. People go out of life easily and with apparent gladness. Do they look for better fortune in another world, or is it that they are tired of the world they know and want nothing more of any life? Who shall say?—Journal.

SENATOR CULLOM'S review of the foreign relations of the United States under the McKinley-Roosevelt administration establishes a record that Americans may be proud of without regard to the partisan criticism that has been made of some incidents of this policy. Its features are worth recapitulating: First there is the settlement of the Cuban question and of the Alaska boundary; the abrogation of the Clayton-Bulwer treaty, and the whole series of diplomatic events connected with the acquisition of the Panama canal site; the "open-door" policy in China, the stand taken by the United States in the Venezuelan imbroglio, and the influential part played by the United States in The Hague peace congress. In all these cases the United States has achieved diplomatic triumphs in the truest and best sense of the term.

## EDUCATED MEN.

### Relation of Education to Successful Careers.

An interesting article is sent out by "Who's Who in America" prepared by Wm. W. Smith, discussing the value of education, and whether college education helps men to success. The figures are verified by W. T. Harris, commissioner of the bureau of education of the department of the interior, and are believed to be substantially correct. He says:

According to the last census there are in the United States 14,794,403 males over thirty years old. The U. S. Bureau of Education estimates that these are divided educationally as follows:

Class 1. Without education, 1,757,023  
Class 2. With only common school training or trained outside of organized schools.....12,054,335  
Class 3. With regular high school training added.....657,432  
Class 4. With college or higher education added.....325,613  
Omitting the few persons under thirty years old, the report from 10,704 notables shows: Without education, none; self-taught, 24; home taught, 278; with common school training, 1,066; with high school training, 1,627; with college training, 7,709, of whom 6,129 were college graduates. That is:

From the 1,757,023 of class 1 no notable reported.  
From the 12,054,335 of class 2 came 1,368, one for every.....8,812 [24 of these report themselves as self-taught; 278 as privately taught.]  
From the 657,432 of class 3 came 1,627, one for every.....404  
From the 325,613 of class 4 came 7,709, one for every.....42  
It thus appears:

1. That from 1800 to 1870 the uneducated boy in the United States failed entirely to become so notable in any department of usefulness and reputable endeavor as to attract the attention of the Who's Who editors, and that only 24 self-taught men succeeded.  
2. That a boy with only a common school education, had in round numbers, one chance in 9,000.  
3. That a high school training increased this chance nearly twenty times.  
4. That college education added gave the young man about ten times the chance of a high school boy and two hundred times the chance of the boy whose training stopped with the common school.  
5. That the A. B. graduate was pre-eminently successful and that the self-educated man was inconspicuous.

From the nature of the case it cannot be claimed that these classifications are exact, but they are based upon the fullest statistics ever obtained, and the necessary estimates have been made by government experts. It is also doubtless true that other circumstances contributed to the success of these trained men, but after all reasonable allowances are made the figures force the conclusion that the more school training the American boy of that period had, the greater were his chances of distinction. How will it be in this century?

It is unnecessary to extend this inquiry to woman. Education is practically her only door to eminence.

## ADVISORY COMMITTEE

### Republican State Central Committee Names Its Cabinet.

Indianapolis, May 7.—The advisory committee of the Republican state committee has been completed. It follows: First district, David Kronenberger, Evansville; Second district, Oscar Shryer, Bloomfield; Third district, U. T. DePauw, New Albany; Fourth district, Lincoln Cravens, Madison; Fifth, T. J. Hudgins, Martinsville; Sixth, Owen L. Carr, Rushville; Seventh, Gaylord Hawkins, Indianapolis; Eighth, Joseph Burghman, Portland; Ninth, John Wingate, Wingate; Tenth, Murray Turner, Hammond; Eleventh, A. C. Bears, Peru; Twelfth, O. W. Christie, Ligonier; Thirteenth, J. O. State, Elkhart. The advisory committee is named by the members of the state committee. It does not take an active part, however, in the management of the campaign.

The managers of the Hearst and Parker movements are now completing arrangements for the state convention here next Thursday. It is difficult to learn of their plans, as each side fears that publicity would be dangerous at this time. It was rumored today that each fears the other will attempt to pack the convention so as to create the impression that the sentiment is all with their man. Some of those who have charge of the Parker campaign are afraid that the Hearst followers will crowd to Indianapolis to shout for him. On the other hand, Hearst's managers know that the state committee, which is very friendly to Parker, will have the distribution of the tickets and that it will see that none but those truly loyal to Parker are seated where the shouting will do the most good. The convention promises to be very interesting.

It was stated here today that Mayor Fogarty of South Bend may not after all the talk about him, become a candidate for the Democratic nomination for governor. Last winter a boom was launched for him and he took to it like a duck does to water. "If I am re-elected mayor I shall be a candidate for governor," he declared. But now it is said that he will not be and that Edgar A. Perkins, president of the State Federation of Labor will be. Fogarty intended to make good because of his strength among organized laborers, as he is a union bricklayer. Perkins has been at the head of the State Federation for several years, and is much better known. He has made no announcement of his candidacy, but it is understood that he is willing to run. Fogarty has not said he would not be a candidate, but there was a rumor to that effect in the air today.

Chairman Goodrich is still backward about the appointment of the executive committee to the state committee. Adam Beck of Huntington, formerly Eleventh district chairman, is to be one of the members and H. C. Starr of Richmond will be appointed. It is said that William Geake of Fort Wayne will be another member, and there has been some talk here of Baron Rothschild, deputy attorney general, but it is not known whether or not he is to have a place. Warren Bigler of Wabash, Walter Schmidt of Evansville and Sidney Cantwell of Hartford City are now members, but there has been no intimation that they are to be reappointed.

### THE WENTZ MYSTERY

Clue Has Been Found to Long Missing Young Millionaire.

Bristol, Tenn., May 7.—There is a strong suspicion that Silas Ison and Thomas Wright, the mountaineers who were captured at Cumberland Gap, Tenn., recently after having been shot and wounded by officers, had a hand in

EDWARD L. WENTZ.

the mysterious disappearance of Edward L. Wentz, the young millionaire who has been missing since last October. Three garments discovered in a house at Glamorgan which Ison and Wright formerly occupied are believed to have been the property of Wentz. One of these, a pair of riding trousers, has on it what appears to be bloodstains. The woman of the family now occupying the house declares the trousers are identically the same in appearance as those worn by Wentz.

### TESTIMONIAL.

MESSRS. WATSON & Co., Indianapolis, Ind., Agents. March 1, 1904. Dear Sirs:—Replying to your query as to whether I am pleased with the E. P. lighting system which you installed for me fifteen months ago, I will say that it has never given me one minute's trouble nor one dollar's expense. It gives the best light I ever saw for interior use. The electric rays are of such a character as to make it very desirable when the perfectly natural colors of objects are to be distinguished without confusion.

As to cost of maintenance, I think my experience, based upon close observation, will warrant the statement that it is under \$80 per annum, and our store is open every day in the year until 11 o'clock p. m., except on Sunday, one hour less. Under the same condition, and with the most approved facilities for the distribution of light, our bills for illuminating gas were about \$200 per year, and for electric light (arcs) about \$100 to \$420 per annum, and at no time have we had more than one half the light we now have.

I am particularly pleased with the light, and the fact that it is so economical makes it the more desirable. As you can readily figure, I paid for my apparatus and cost of light in about four or five months. Yours truly, R. I. EADS.

**The Beginning of the Gospel.**

JOSEPHUS' TESTIMONY CONCERNING JESUS AND JAMES.

In book VIII, Ch. III Josephus says: "Now there was about this time Jesus a wise man, if it be lawful to call him a man, for he was a doer of wonderful works, a teacher of such men as receive the truth with pleasure. He drew over to him both many of the Jews and many of the Gentiles. He was [the] Christ. That is the sent or appointed one. "And when Pilate, at the suggestion of the principal men amongst us, had condemned him to the cross, those that loved him at first did not forsake him; for he appeared to them alive the third day, as the divine prophets had foretold there and ten thousand other wonderful things concerning him. And the tribe of christians so named from him are not extinct at this day." The time when Josephus wrote these words, A. D. 93. Josephus says again: "Festus now being dead and Albinus was put upon the road so he assembled the sanhedrim of judges, and brought before them the brother of Jesus, who was called Christ, whose name was James and some others. And when he had formed an accusation against them as breakers of the law, he delivered them to be stoned."

The best and most reliable scholars today agree in admitting the genuineness of these quotations, which establish the truth of the New Testament as distinctly as if Josephus had written a volume.

**Died on Her Graduation Day.**

Miss Inez Bedel, daughter of George M. Bedel and wife, of Vernon township, died at her home Friday evening, May 6, of internal hemorrhage. She had just completed the eighth grade work and the commencement exercises were to have been held in the Uniontown Baptist church at 7:30 on the same evening she died. She was the only graduate in the township and her death on the day of graduation, and almost at the hour for the exercises is peculiarly pathetic. The commencement decorations will be left in the church until after the funeral, Sunday morning at 10 o'clock, conducted by Rev. I. C. Overman.

**What Texas Farmer Forgot.**

A story is going the rounds regarding a farmer who is greatly troubled with absentmindedness. On the way home from town, so the story goes, he thought came to him that he had forgotten something. He took out his note book, went over every item and checked it off. He saw that he had made all the purchases he had intended. But as he drove on he could not put the feeling aside. When he arrived home and drove up to the house his daughter came to meet him, and with a look of surprise asked, "Why, where is ma?"

**Olin Bundy Dead.**

Olin Bundy, an attorney at Bedford, died at Fletcher's Sanatorium, at Indianapolis Friday May 6. Mr. Bundy went from North Vernon to Bedford about two years ago and was at once recognized as one of the strong young attorneys of Bedford. He was a member of the investigating committee for the Sarah Schaefer murder. At the time he was just recovering from a long illness and at the close of the investigation he was suffering with nervous prostration. This was followed by pneumonia which was more than his weakened constitution would stand.

The Rev. Dr. McLaughlin asserts that there are 200,000 Christians in Japan, in a population of 45,000,000.

**A PROMINENT COLLEGE MAN.**

One of Indiana's Useful Educators Says: "I Feel Like a New Man."

**MR. JOHN W. MENG.**

Mr. John W. Meng, 64 Jefferson Ave., Indianapolis, Ind., State Representative of Indianapolis Business College, writes:

"I firmly believe that I owe my fine health to Peruna. Constant travel and change of food and water wrought havoc with my stomach, and for months I suffered with indigestion and catarrh of the stomach. I felt that the only thing to do was to give up my occupation which I felt very reluctant to do. Seeing an ad. of Peruna as a specific for catarrh I decided to give it a trial, and used it faithfully for six weeks, when I found that my troubles had all disappeared and I seemed like a new man. I have a bottle of Peruna in my grip all the time, and occasionally take a few doses which keeps me in excellent health."—John W. Meng.

THE most common phases of summer catarrh are catarrh of the stomach and bowels. Peruna is a specific for summer catarrh.

Hon. Willis Brewer, Representative in Congress from Alabama, writes the following letter to Dr. Hartman:

House of Representatives,  
Washington, D. C.

The Peruna Medicine Co., Columbus, O.; Gentlemen:—I have used one bottle of Peruna for flatulence, and I take pleasure in recommending it to those who need a good remedy. A tonic it is excellent. In the short time I have used it it has done me a great deal of good."—Willis Brewer.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

The above will cheerfully be paid in lawful money of the United States, by the undersigned, proprietors of Dr. Pierce's Golden Medical Discovery, if they cannot show the original testimonials and signatures of the individuals volunteering those published below, and also of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people, in their behalf.

World's Dispensary Medical Association, Prop's, Buffalo, N. Y.

**THE REASON.**—There is no medicine equal to Doctor Pierce's Golden Medical Discovery, for the purifying of the blood. It carries off the poisons which contaminate the life fluid. It increases the activity of the blood-making glands and gives the body an increased supply of pure, body-building blood. It builds up the body with sound, healthy flesh instead of flabby fat, promotes the appetite, feeds the nerves, and so gives to weak nervous people vitality and vigor.

Many people wonder how a medicine that can cure indigestion can also cure blood diseases. The reason is that pimples, sores and all skin diseases are the direct result of impure blood. If we can find some way to purify the blood and eradicate the poisons—we can cure the disorder which shows on the skin. The "Discovery" helps the assimilation of food in the stomach—thus the blood takes up from the stomach what it requires to make good rich blood, thereby increasing the red blood-corpuscles. At the same time the liver is forced into activity and the poisons in the body are thrown out.

"I am pleased to tell you that three bottles of Doctor Pierce's Golden Medical Discovery has cured my husband of liver complaint and indigestion," writes Mrs. C. Hall, of Novar, Ontario. "He suffered for a long time with pain in his right side and had to leave off work several times. Tried three doctors here but they did not do any good; also tried several kinds of patent medicines but received no benefit. Then I wrote to you and you advised us to try your 'Golden Medical Discovery.' We got a bottle at once and before my husband had taken all of this one bottle he was feeling ever so much better and able to work again. He continued with the 'Discovery,' until he had taken three bottles and

is now feeling better than for years. We both thank you, and, if you think by publishing this that it will benefit other sufferers, you are at liberty to do so. We have got several friends to try your 'Golden Medical Discovery' for different complaints and I am pleased to say that it has never failed. We wish you every success."

"This is to certify that I have used Dr. Pierce's Golden Medical Discovery and think it's the greatest medicine in the world," writes Mrs. V. M. Young, of Weir, W. Va. "I took down sick in January last (six months ago) and called in our physician and he gave me medicine but I grew worse. He said I had dyspepsia in its worst form. I decided to try your medicine and began to improve. I used five bottles, two of the 'Golden Medical Discovery' and three of 'Favorite Prescription,' and now am doing my own house work. A number of my lady friends also are using Dr. Pierce's medicine and they recommend it highly. May God bless and prosper you in your grand work."

"I take pleasure in recommending Dr. Pierce's Golden Medical Discovery as a blood purifier," writes L. J. Smithwick, Esq., of Norfolk, Va. "For years I was a sufferer from a very obstinate form of skin disease, commonly known as tetter, which, being confined to the palms of my hands and fingers, was very annoying. In cold weather the skin would become hard and dry and would break or crack, which was very painful. He advised me to try his 'Golden Medical Discovery' to purify the blood after which he thought the skin trouble would all disappear, and I am grateful to say that after the fourth bottle there was no sign of the disease left. I think Dr. Pierce's Golden Medical Discovery a wonderful blood purifier and most heartily recommend it to all who may be suffering from any form of skin disease."

## Sure Relief for Women.

Eighteen months ago I was so completely run down that my body ached from head to foot. My back seemed to break in two and I suffered intense pain in the lower abdomen. I could not afford to lay off and take a rest, and no medicine helped me any. A friend told me how much Wine of Cardui built her up and advised me by all means to take it. The day I took the first dose the recovery of my health began. It was nearly three months before I was entirely cured, but at the end of that time I was in better health than I had been for seven years. I look on Wine of Cardui as the most blessed medicine that a woman could possibly take when she feels sick and tired of life.

Anna Nelson  
ORATOR, WEDNESDAY CHAUTAUQUE CLUB.

## WINE OF CARDUI

Mrs. Nelson describes the condition of thousands of women. That condition comes by slow stages. Usually the important function of menstruation is at first slightly irregular. Then comes the painful periods. Bearing-down pains and ovarian inflammation follow. Finally the nervous system gives way and the whole system has become affected and the pains rack the body from head to foot.

Wine of Cardui is a menstrual regulator of established reputation. No woman who takes it suffers as Mrs. Nelson suffered. It gives speedy and complete relief from the torturing menstrual agonies which are making so many women invalids today. Do not let yourself come to the pitiable condition Mrs. Nelson describes. Secure a bottle of Wine of Cardui from your druggist today and begin treatment immediately.

## LAW NOT POPULAR

Its Enforcement at Laporte Creates a Storm of Opposition.

### A DETERMINED MARSHAL

Opponents of Marshal Bongers Want to Legislate That Officer Out of His Job.

He Is Going After Nicholson Law Violators and They Don't Like It.

Laporte, Ind., May 7.—Because of Marshal Bongers' determination to enforce the Nicholson law, persuasion is being brought to bear on Mayor Darow to order a census, with a view of showing that Laporte has a population of 10,000, which would entitle it to a metropolitan police system under the 1897 law. By means of a metropolitan system Bongers would be legislated out of office. Meanwhile the marshal is continuing his enforcement of the law, and additional affidavits have been filed against saloon men who sold intoxicants on election day. The names of prominent politicians, both Republican and Democratic, are among the witnesses to these alleged violations.

### SATISFACTION IS EXPRESSED

Block Coal District Rejoicing Over Settlement of Differences.

Brazil, Ind., May 7.—Great satisfaction is expressed in the block coal field because the threatened strike has been averted. The miners fought stubbornly since April 1, at which time the old scale expired, for two points—extra pay for low coal in machine mines, and for an eight-hour day for the engineers, or extra pay for the extra hours that branch of the mine workers was compelled to be on duty. The operators positively refused to grant either demand, citing the clause in the national agreement recently signed, that there should be no changes in the local agreements that would increase the cost of the production of coal. The miners insisted that these demands did not come under this agreement. Many joint conferences were held without avail, and it looked as if a strike were certain. National Vice President Lewis came here and counseled against a strike. The miners yielded every point, the operators making but one concession, an extra 10 cents an hour on the pay of the firemen.

### He Was Too "Peart."

Lebanon, Ind., May 7.—Information has been filed in the circuit court against saloon keepers in various parts of the county for alleged violations of the liquor law. Among these is John Smith of Thorntown, who is facing six separate charges, the bond in each case being \$500. Smith sought to have this bond reduced to \$100, falling in which he addressed Judge Artman in open court, remarking: "I did not expect to get justice from you, anyway." The court promptly fined him \$25 and costs for contempt, and committed him to jail for five days. The temperance people of this county are waging a war against the licensed saloon in several towns, and have defeated William Vice of Advance; Wm. F. Hogan of Zionsville, and James R. Black of Thorntown.

### Shipped the Tramps Out.

Anderson, Ind., May 7.—Burglars secured about \$100 in a purse, a gold watch, diamonds and other jewelry at the home of Dr. F. L. Tracy, while the family was asleep. It is supposed that the theft was committed by the followers of a circus here. About forty men arrested as suspects were held in jail when officers put all of the men in a Big Four box-car and attached it to a train headed for Indianapolis. "The railways brought these men to town and they can take them away," said the officers.

### Schoolboys on Trial.

Corydon, Ind., May 7.—Ollie Smith and Charles Guetz, aged fourteen years respectively, are on trial in the circuit court for manslaughter, charged with killing Adolph Schmidt, a child orphan boy. While playing during school recess in Spencer township the defendants lassoed the Schmidt boy around the neck and dragged him some distance. The boy dying of his injuries. The defendants claim they were playing "injun" and had no intention of injuring their victim.

### May Enter Plea of Guilty.

Wabash, Ind., May 7.—R. B. Coapstick, the defaulting cashier of the Big Four freight office, will be tried next week, although it is intimated that the defendant will enter a plea of guilty hopeful of a lighter sentence. A surety company is responsible for \$2,000 of the \$3,000 default, and it is understood that the railway company will look to its agent to make good the deficit.

Brazil, Ind., May 7.—Dorothy, the five-year-old daughter of John Culbertson of this city, is in a serious condition as a result of a snake bite. The child saw the reptile in the yard and attempted to play with it, when it sank its fangs into the child's arm. The snake was killed. The child's arm is badly swollen, but the physicians think her life will be saved.

## THE STATE OF TRADE

Better Weather Has Brought About More Encouraging Conditions.

New York, May 7.—Bradstreet's weekly review of trade today says: Long expected good weather has at last materialized and has helped farmers and retail trade in reasonable goods. Crop preparations and planting had made especially good progress, the present outlook being that while the winter wheat crop will be short, the acreage in spring wheat, oats and corn will be heavily increased. Retail and wholesale trade, however, has not experienced the stimulation earlier looked for, there being a disposition so far to regard results as below expectations.

Re-order trade with jobbers is slow and fall orders are backward. Other conditions partake of irregularity. The iron trade is quieter, with prices distinctly weaker. On the other hand rather less than the usual number of May day strikes have occurred, and this year so far makes a more favorable showing than did 1903. Railway earnings continue to show a falling off. Failures are little more than the normal in number, but, swelled by suspensions of financial institutions and a few large manufacturers, liabilities are heavy for this season of the year.

### Rioter Pleads Guilty.

Evansville, Ind., May 7.—In the circuit court here Fred Behme pleaded guilty to having taken part in the race riots here last July and was fined \$50. This is the last of the noted riot cases to be tried. In twenty-one cases only four rioters were sent to the penitentiary, one white man and three negroes.

### An Open Letter.

From the Capin, S. C., News: Early in the spring my wife and I were taken with diarrhoea and so severe were the pains that we called a physician who prescribed for us, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand gave each of us a dose and we at once felt the effects. I procured a bottle and before using the entire contents were entirely cured. It is a wonderful remedy and should be found in every household. H. C. Bailey, Editor. This remedy is for sale by C. W. Milhous.

### Serious Clash Threatened.

Washington, May 7.—In official circles here apprehension is felt as to the outcome of the sharp clash between Brazil and Peru growing out of the dispute over the territories lying in the valleys of the Alto Jurua and Alto Purus, known as the Acre territory.

### Cox Drew Out.

New Albany, Ind., May 7.—Congressman Zenor was renominated by acclamation by the Third district Democratic convention, the Hon. William E. Cox of Dubois county withdrawing from the contest and seconding the nomination.

He gives but an empty hand who holds his heart.

It is no sign that a man is riding to heaven because he is driving others there.

## Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are clogged or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick, steady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, impure blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail, none of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Piquette, N. Y.

Don't make any mistake, remember the name, Swamp Root. Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.
